Recommendations

Landscaping

- Street Trees
- Enhance areas in front of Water Treatment Plant

WINTERS CHAPEL CORRIDOR

Recommendations

Landscaping
Crosswalks:

Stamped @ major

Striped @ all other

Recommendations

Landscaping

Crosswalks

Bus Shelters-at all stops

Recommendations

Landscaping

Crosswalks

Bus Shelters

Street Furniture

Through corridor at intervals

Recommendations

Landscaping
Crosswalks
Bus Shelters
Street Furniture

5 Pocket Park Locations

- South of Spalding Glen on east side
- At Transmission easement north of Walmart on east side
- Adjacent to cemetery on west side north of Jones Mill
- Along Water Treatment Plant frontage
- North of Peachtree Industrial along west side

Recommendations

Landscaping

Crosswalks

Bus Shelters

Street Furniture

5 Pocket Park Locations

Drainage

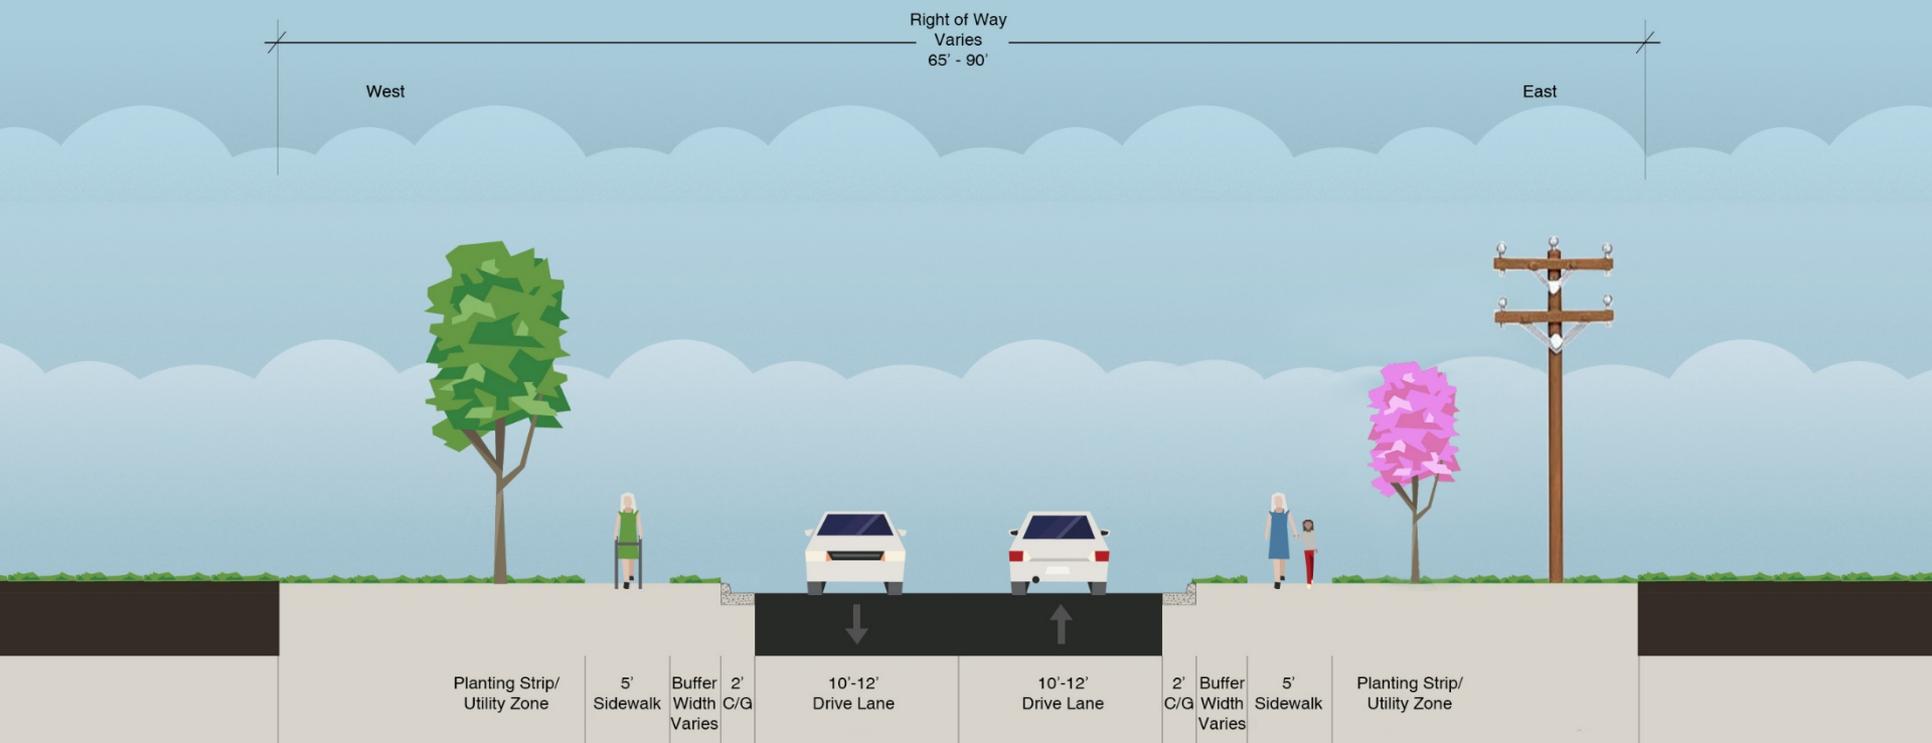

-Improve drainage in select locations along corridor

Recommendations

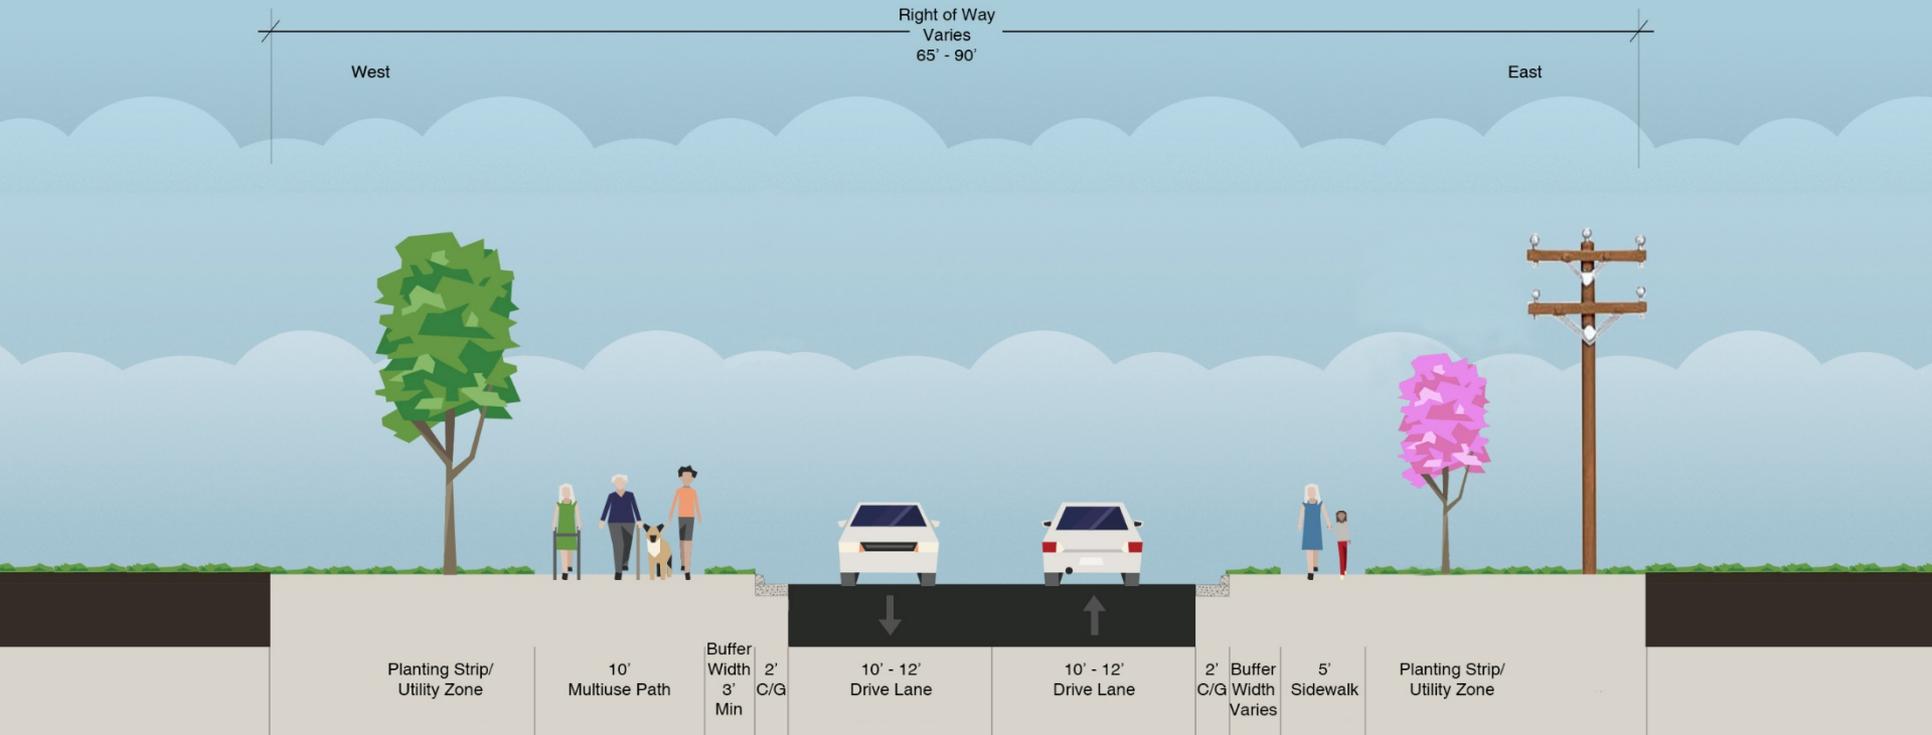

- Landscaping
- Crosswalks
- Bus Shelters
- Street Furniture
- 5 Pocket Park Locations
- Drainage
- Complete Sidewalk Network**
-MINIMUM –continuous
sidewalks from Peachtree
Industrial north to Spalding

Winters Chapel Road Option A Typical Section

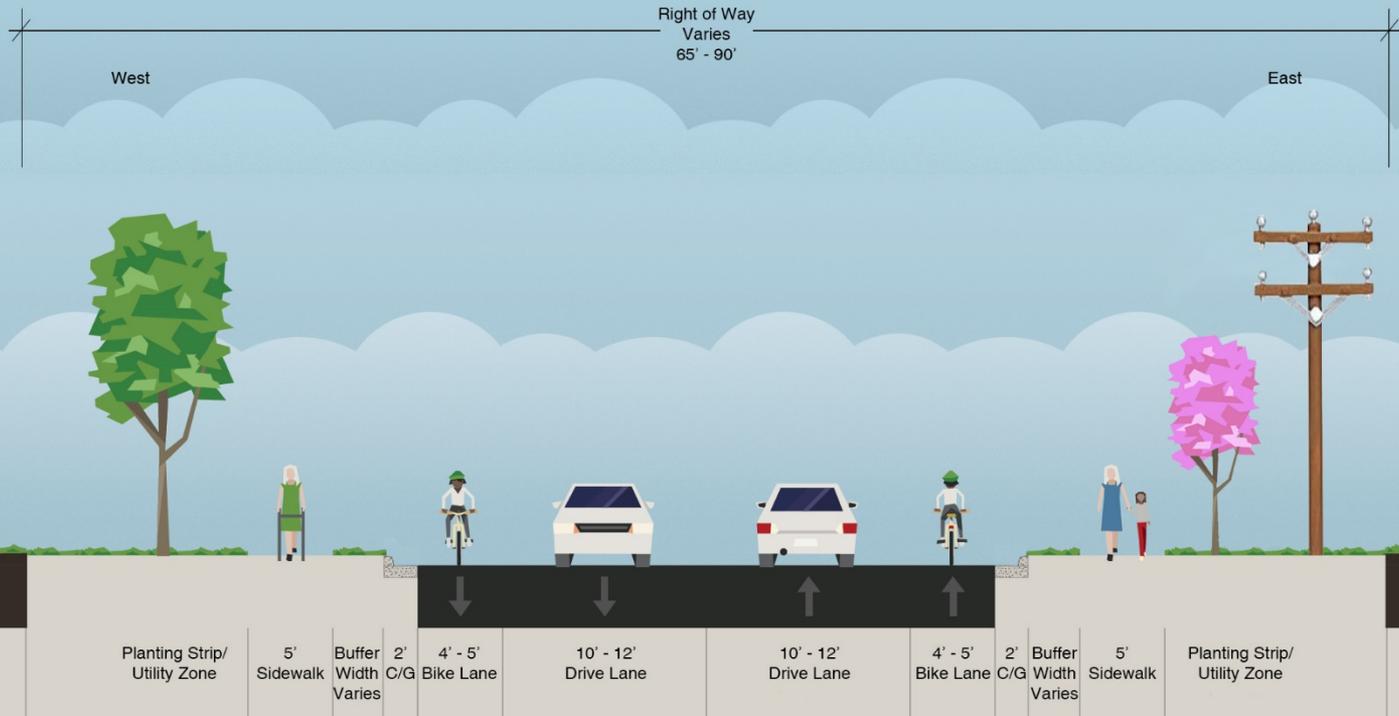

Base Recommendation: Entire Corridor

Winters Chapel Road Option B Typical Section

Add Recommendation: *In addition to sidewalks throughout corrector:* Multi-Use Path Between Transmission Easement N. of Peeler Road and Fontainbleu Way on west side

Winters Chapel Road Option C Typical Section

Add Recommendation: In addition to sidewalks throughout corridor: Bike Lanes/Widening Between Peeler Road and Spalding Drive, both sides

Planning Commission Input Dunwoody

Explore the possibility of lowering the speed limit along the roadway and making it uniform

Consider narrowing the drive lanes along the roadway

Consider 'complete streets' along the entire corridor

Explore this corridor in terms of broader connectivity to the region

Planning Commission Input

Peachtree Corners

Explore multi-use trails on either side of road from commercial district north to Spalding

Consider entire Peachtree Industrial intersection in study

Consider additional mid block crossings closer to Peachtree Industrial

Conclusion NEXT STEPS & Q/A

Record Your Recommendations
Prepare Code Recommendations
Finalize for Public Hearings &
Adoption (April)

Site Area Recommendation Maps

AREA 1 PRELIMINARY RECOMMENDATIONS

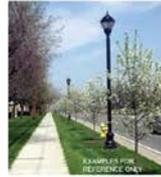

PEDESTRIAN IMPROVEMENTS

- Sidewalks are being proposed by Gwinnett County SPLOST from Dunwoody Club north to Spalding on the east side of the roadway. ADA curb cut ramps and crosswalks to be included.
- Sidewalks north from Peeler Road to Nesbit Ferry Road on west side of roadway are proposed. Minimum 5' wide with separation from roadway. ADA curb cut ramps and crosswalks to be included.
- Stamped asphalt crosswalk across Winters Chapel at Spalding, with pedestrian signal.

LIGHTING

- Pedestrian lighting or improved roadway lighting between Spalding Glen and Winters Hill on east side of road.

PARK SPACE

- Pocket park in right of way at large property south of Chapel Glen and Spalding Glen on east side of road near existing wetland.

OTHER IMPROVEMENTS

- Drainage improvements south of Winters Hill on east side of roadway.

AREA 2 PRELIMINARY RECOMMENDATIONS

PEDESTRIAN IMPROVEMENTS

- Sidewalks are being proposed by Gwinnett County SPLOST from Dunwoody Club north to Spalding on the east side of the roadway. ADA curb cut ramps and crosswalks to be included.
- Sidewalks north from Peeler Road to Nesbit Ferry Road on west side of roadway are proposed. Minimum 5' wide with separation from roadway. ADA curb cut ramps and crosswalks to be included.
- Sidewalk connection to future sidewalks planned on north side of Dunwoody Club Drive.
- Stamped asphalt crosswalk across Winters Chapel and Dunwoody Club Drive with pedestrian signal.
- Consider mid-block crossing across from Congregation Beth Shalom. Additional study required.

PARK SPACE

- Pocket park in right of way south of Marston Way on east side of road, possibly under power easement.
- Potential trail connection along Colonial Gas Easement west into Dunwoody should be explored.

OTHER IMPROVEMENTS

- Drainage improvements south of Marston Way on east side of road.
- Drainage improvements at power easement north of Congregation Beth Shalom on east side of road
- Drainage improvements across from Congregation Beth Shalom on west side.

AREA 4 PRELIMINARY RECOMMENDATIONS

PEDESTRIAN IMPROVEMENTS

- Sidewalks north from Peeler Road to Nesbit Ferry Road on west side of roadway are proposed. Minimum 5' wide with separation from roadway. ADA curb cut ramps and crosswalks to be included.
- Sidewalks are being proposed by Peachtree Corners LMIG along the east side of Winters Chapel road in front of water treatment plant north to Winterbrook Court.

LIGHTING

- Pedestrian lighting on both sides of road through commercial district south to southern border of water treatment plant

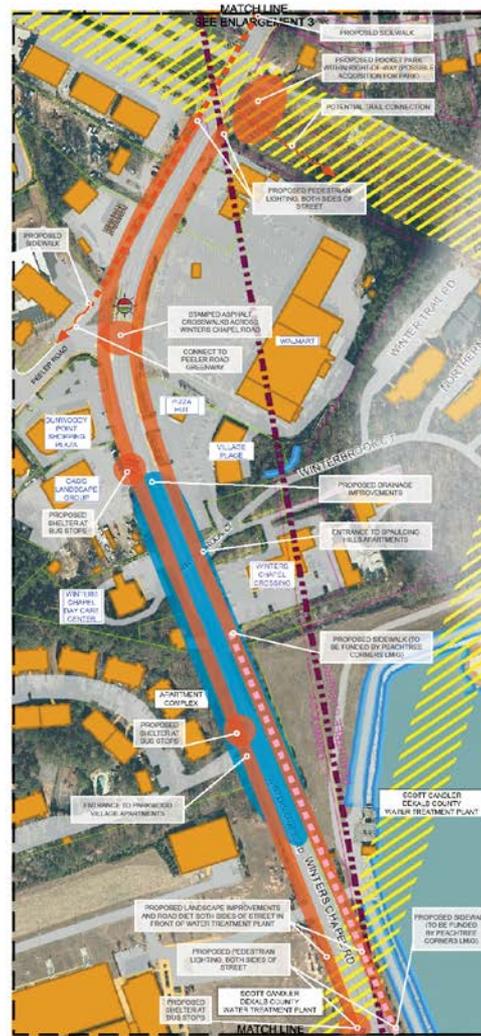

PARK SPACE

- Pocket park within water treatment plant frontage (exact location TBD)
- Possible trail connection along power easement toward Winter Trail Road and apartments.
- Trail connection to Peeler Road Greenway

OTHER IMPROVEMENTS

- Bus shelters at bus stops south of Peeler Road on west side of Winters Chapel. Alternately, research and install bus shelters at high-use bus stops only.
- Drainage improvements extending north and south from Winters Chapel Crossing shopping center.
- Possible road diet and landscaping along water treatment plant frontage on both sides. To be coordinated with DeKalb County due to restricted right of way.

AREA 5 PRELIMINARY RECOMMENDATIONS

PEDESTRIAN IMPROVEMENTS

- Sidewalks are being proposed by Peachtree Corners LMIG along the east side of Winters Chapel road in front of water treatment plant north to Winterbrook Court.
- Stamped asphalt crosswalk across Winters Chapel at Peachtree Industrial Access Road with pedestrian signals and ADA accommodations. Possible modification of refuge islands.
- Crosswalks across Peachtree Industrial Access Road and underpass with pedestrian signalization (coordinate with GDOT)

LIGHTING

- Pedestrian lighting on both sides of road through commercial district south to southern border of water treatment plant

PARK SPACE

- Pocket park within water treatment plant frontage (exact location TBD)
- Pocket park at vacant lot north of Chevron station on west side of road, or acquisition of property for park.

OTHER IMPROVEMENTS

- Bus shelters at bus stops south of Peeler Road on west side of Winters Chapel. Alternately, research and install bus shelters at high-use bus stops only.
- Possible road diet and landscaping along water treatment plant frontage on both sides. To be coordinate with DeKalb County due to restricted right of way.
