

RELEASE DATE: June 6, 2016

PROJECT: 2016 Paving Contract Inspection and Testing Services (IWQ 2016-08)

DUE DATE: June 10, 2016

Informal Written Proposals are being solicited from qualified firms for asphalt resurfacing construction testing and inspection services. A list of the roads to be resurfaced is attached. The testing is expected to consist of marking failed pavement areas for deep patching, monitoring patching and asphalt placement, observation of full depth reclamation, documenting quantities and performing QC testing. In addition to full-time monitoring of the asphalt placement including temperature checks and density testing during placement, firms should include costs for 20 asphalt cores for thickness and density measurement and up to 3 extraction and gradation tests.

The paving contractor's work hours will generally be between 7 a.m. and 7 p.m. Monday through Friday beginning on or around June 13th. The project is expected to take about 10 to 12 weeks.

Firms should submit their proposals in letter format including a lump sum fee estimate and applicable unit prices. The fee estimate for the full depth reclamation testing should be itemized separately from the testing for the roads to be milled and resurfaced. Proposals should be submitted to the City of Dunwoody, 41 Perimeter Center East, Suite 250, Dunwoody, GA 30346 no later than 2:00 p.m., June 10, 2016. Any questions should be directed to John Gates, Purchasing Manager at 678-382-6750.

Certification of Non-Collusion in Preparation _____
