

GEORGETOWN MULTI-MODAL IMPROVEMENTS & GATEWAY PROJECT

The Georgetown Multi-Modal Improvements & Gateway Project was originally born out of the vision set forth in the City of Dunwoody's 2011 Georgetown Area Master Plan. The project provides a prime opportunity to establish a City gateway and signature street ideal for various modes of transportation. The City of Dunwoody and project consultant URS Corporation currently are studying multi-modal improvements along Chamblee Dunwoody Road, and welcome your insight and input for the future success of the project.

PROJECT LOCATION

The project reaches from the intersection of North Shallowford Road and Cotillion Drive to the intersection of Chamblee Dunwoody Road and Vermack Road via stretches of Cotillion Drive and Chamblee Dunwoody Road.

STAY INFORMED

Visit the Chamblee Dunwoody Georgetown Gateway project webpage at www.dunwoodyga.gov for updated information throughout the development of the project.

PROVIDE YOUR PERSPECTIVE!

Share your thoughts and concerns for this project through one of the following methods:

1. **Written Comment**- Comment cards are available at the Public Information Open House and are available on the project's web page at www.dunwoodyga.gov.
2. **Online Survey** – An online survey is available on the project's web page at www.dunwoodyga.gov.
3. **Verbal Comments** – A courtroom stenographer is available during the Public Information Open House to transcribe your verbal comments.
